# Company Overview

# About Us

For over four decades, ACGC has built a legacy of excellence in Saudi Arabia's construction and operations & maintenance (O&M) industry. Our dedicated team combines extensive experience with unwavering customer focus, ensuring outstanding results every time. Certified to the highest international standards – ISO 9001:2015 (Quality Management), ISO 45001:2018

(Occupational Health and Safety), and ISO 14001:2015 (Environmental Management) – ACGC offers unparalleled expertise across all construction and O&M disciplines. Headquartered in Al Khobar, with site offices in Jeddah, Riyadh, Dhahran, Tabuk, Hafr Al Batin, Al Jouf, Taif, and Al Majma'a, ACGC actively plays a role in shaping the Kingdom's infrastructure. Our diverse portfolio

encompasses O&M, facility maintenance, refurbishment, and design & build projects, catering to your specific needs.

**Vision**

**Mission**

**Values**

# Vision

Premier construction and O&M contractor committed to supporting the Kingdom Vision 2030 mandate by delivering and operating iconic projects safely, on time, to world-class standards and in alignment with nationalization strategy.

# Values

## **We deliver CUSTOMER satisfaction**

We are dedicated to satisfying our customers. We believe in respecting our customers, listening to their requests, and understanding their expectations.

## **We take responsibility for QSHE**

We will deliver excellence, strive for continuous improvement, and respond vigorously to change. Each of us is responsible for the quality, safety, health and environmental impact of whatever we do.

## **We provide LEADERSHIP as a company and as individuals**

Our leadership is founded on talented employees effectively applying advanced technology and sound business management. We lead through our competence, creativity and teamwork.

## **We act with INTEGRITY**

We are each personally accountable for the highest standards of behaviour, including honesty and fairness in all aspects of our work. We will consistently treat customers and company resources with the respect they deserve.

## **We value our PEOPLE**

We treat one another with respect and take pride in the significant contributions that comes from the diversity of individuals and ideas. We are committed to openness and trust in all relationships.

## **We regard our SUPPLIERS as essential team members**

We owe our suppliers the same type of respect that we show to our customers. Our suppliers deserve fair and equitable treatment, clear agreements and honest feedback on their performance.

# Mission

Serving multiple clients across diverse product lines and delivering excellence in every aspect of our services while fostering sustainability, innovation, and the highest industry safety standards.

## CEO Message

Turki Basri

Dear Team Members, Valued Clients, and Esteemed Stakeholders,

As we stand at the threshold of this new chapter, I reflect on the remarkable journey we've shared at ACGC. As a Construction and FM Contracting Company specializing in industrial, military, and residential projects, we recognize the profound impact our work has on organizations' and people's lives. Whether it's supporting the infrastructure of essential industries, ensuring national security through secure installations, or creating thriving communities where families can flourish, we are committed to shaping environments that empower individuals and contribute to a brighter future for all.

Every project we undertake stands as a testament to the dedication, skill, and unwavering commitment of each individual who wears our hard hat. From architects and engineers envisioning the blueprint to laborers meticulously laying each brick, we are a symphony of expertise, united by a common purpose: to build something extraordinary and maintain it.

### Embracing Transformation:

This year marks a significant turning point for ACGC as we embark on a transformative journey that will redefine our role as a leading construction, operation and maintenance contractor. Aligned with the Kingdom of Saudi Arabia's Vision 2030, our mission remains steadfast:

Transforming Visions into Reality. Building this future depends on an ongoing collaborative process, where we learn from each other and adapt together.

### For Our Clients and Stakeholders:

We are committed to partnering with you to translate your vision into reality, expanding our services lines and forming strategic alliances to offer even more comprehensive solutions. Leading the charge with fresh perspectives and expertise, we deliver innovative and sustainable projects that align with Vision 2030.

Together, let's build something truly remarkable.

### For Our Team:

This transformation signifies exciting opportunities for personal and professional growth. We are dedicated to nurturing national talent and empowering Saudi youth through robust training programs, mentorship initiatives, and strategic partnerships. Whether you're an experienced team member or a rising star, we aim to equip you with the skills and expertise required to excel in the evolving construction landscape.

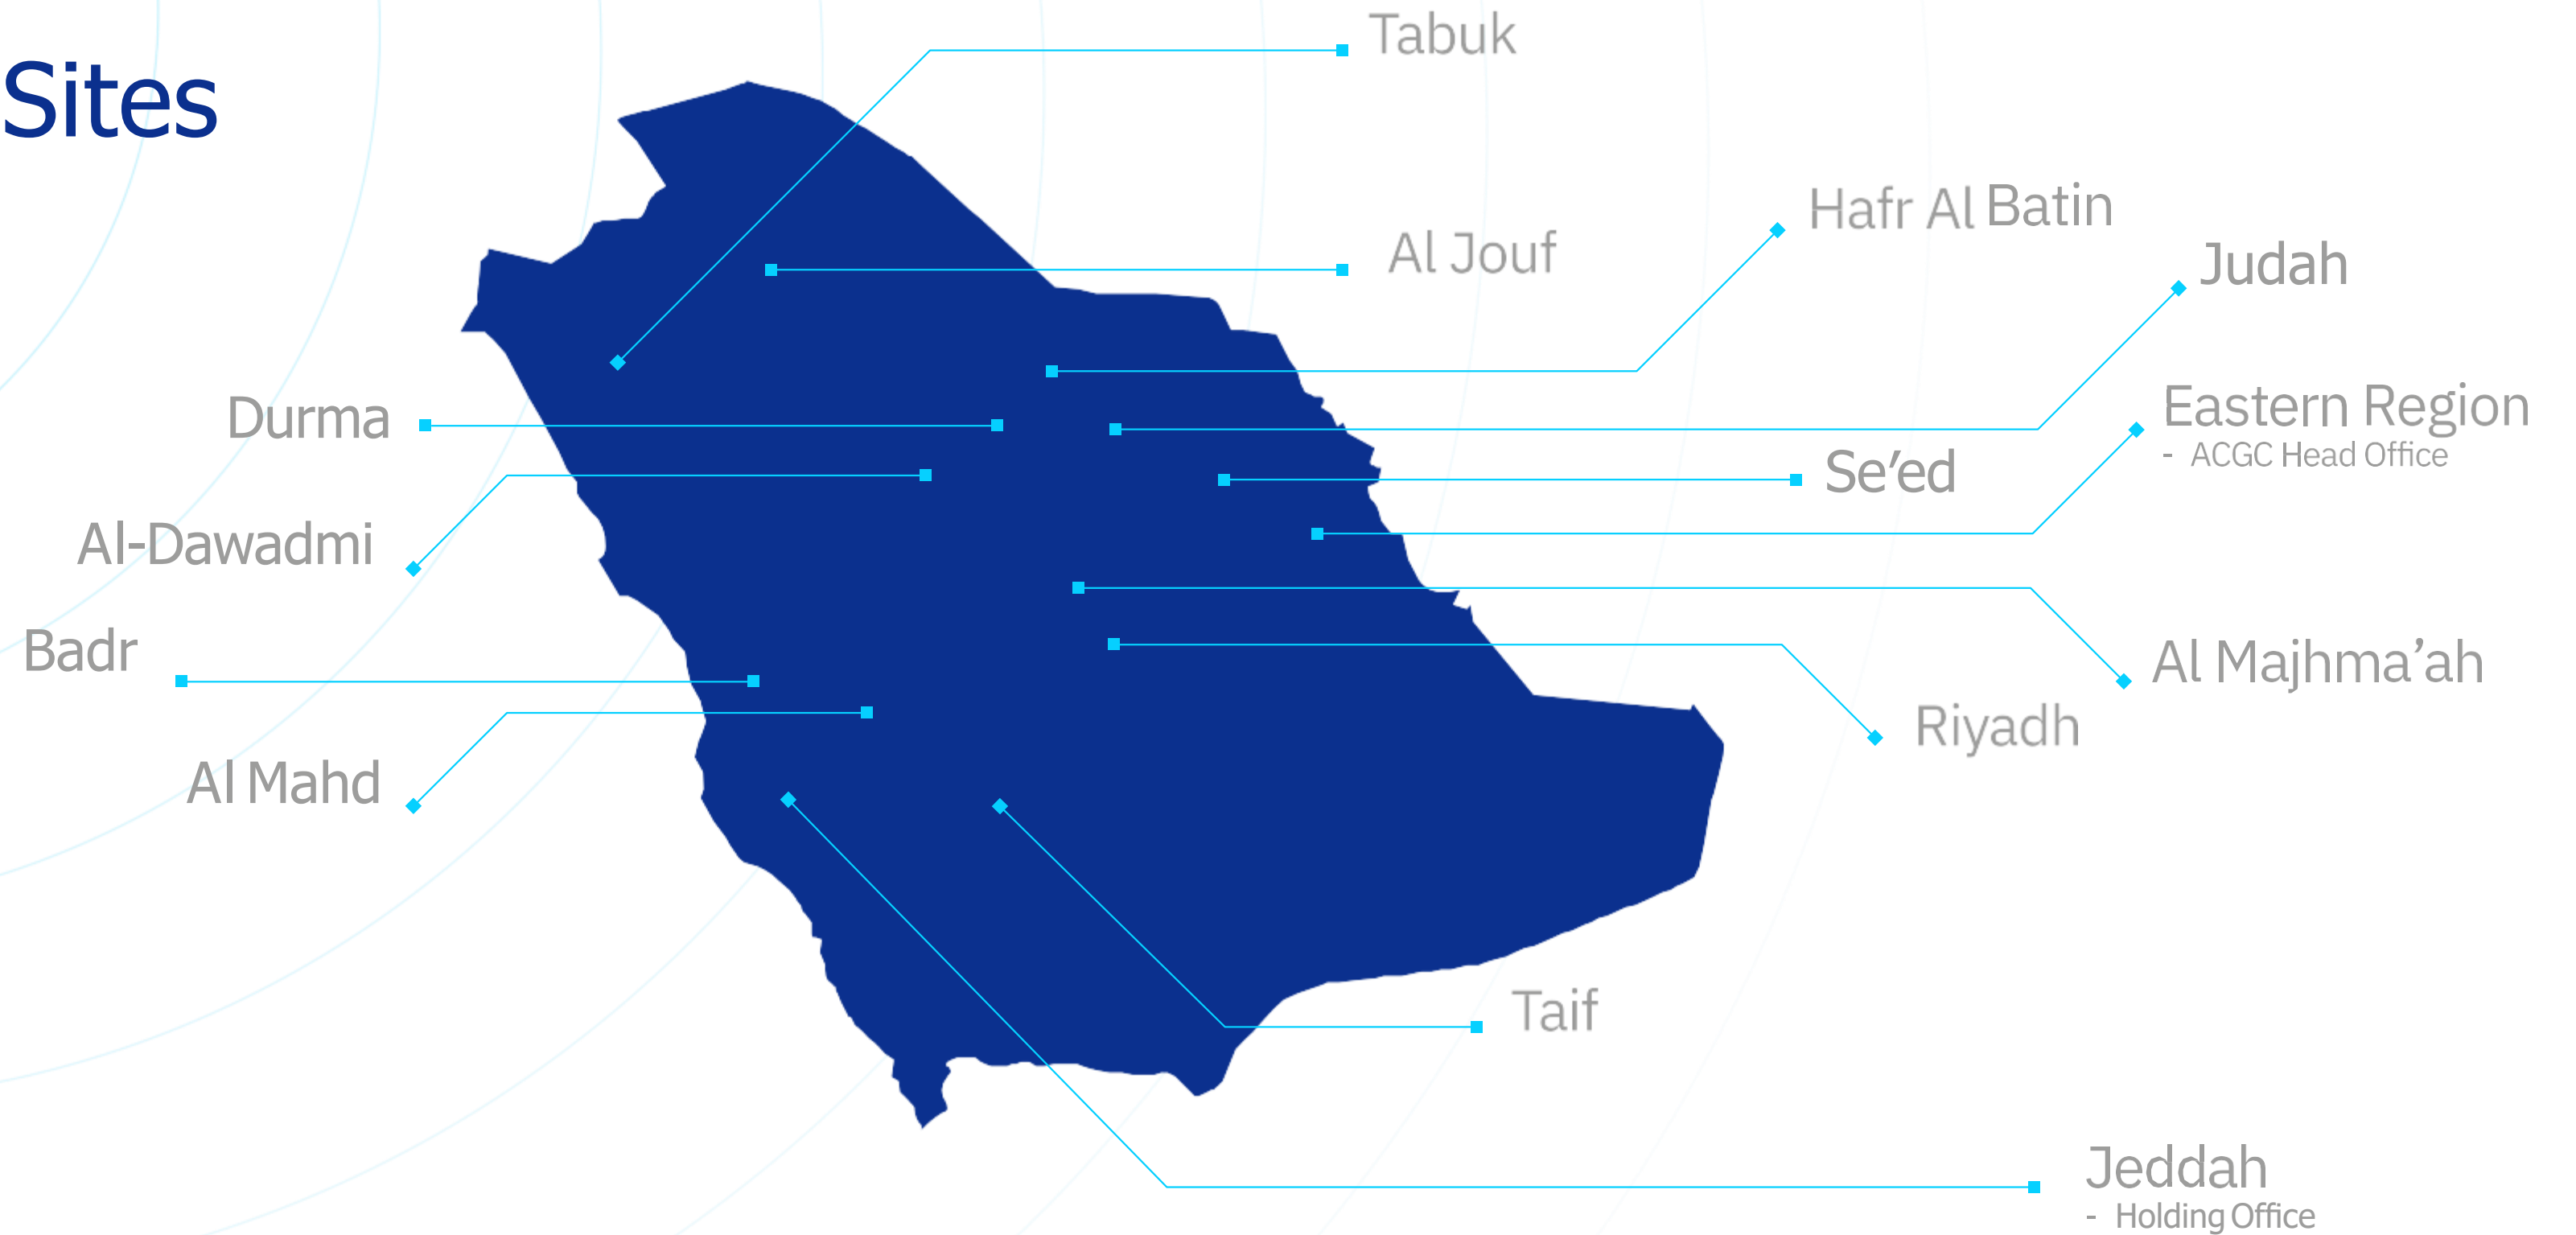

Together, we'll play a pivotal role in contributing to the Kingdom's ambitious development plans.

### A Shared Future:

We are grateful for your unwavering support and trust. As we embark on this transformative journey, we invite you to join us in shaping a brighter future for all. This is more than just a transformation for ACGC; it's an opportunity for employees, clients, and stakeholders to come together and build something truly remarkable, leaving a lasting legacy for generations to come.

# Construction Area of Expertise

## Construction of Airport Terminals:

### Examples of Scope of Works:

Engineering, Procurement, Construction and Commissioning of a “Private Aviation Terminal”. *Scope included are Demolition Works, Excavation and backfilling, External Works, Architectural, Civil, Structural, Mechanical, HVAC, Fire Protection System, Electrical Services, C3 Systems, and IT Infrastructure and Utilities.*

## Examples of Refurbishment Scope of Works:

- Examples of Refurbishment Scope of Works: Detail Design, Procure, Construct, test & Commissioning of the Existing Private Aviation Terminal Building.
- Upgrade of Hardened Aircraft Shelters (6 nos), Hardened Aircraft Quick Reaction Shelters (6nos), Dummy Shelters (4 nos), Aircraft Sun Shelters, AGE Sun Shelters, Ammunition Stores (3 nos), Aircraft Refueling Station, Sewage Pumping Stations (3 nos), Runway Supervisory Units, ATC Squadron, Base Fire Station, Civil ATC, Energy Building, Fire and Rescue Stations, MDF and SCC Building.
- Replacement and / or upgrading of mechanical, electrical and command control and communications systems (C3) and infrastructure of military facilities
- Demolition of Aramco Hangar and adjacent annexes, Facilities at TIC Warehouse, Fuel Shelters inside Dharan Airbase.

# Construction Area of Expertise

## Construction of Special and Industrial Buildings such as:

- Accommodation Compounds
- Aircraft Facilities
- Offices
- Warehouses
- Security Gates
- Maintenance Shops
- Plants
- General Buildings

### Examples of Scope of Works:

Engineering, Procurement, Construction and Commissioning of Facilities of "Scheduled Maintenance And Upgrade Of Military Facilities".

*Scope included all External Works, Architectural, Civil, Structural, Mechanical, HVAC, Fire Protection System, Electrical Services, C3 Systems, IT Infrastructure and Utilities.*

*Engineering, Procurement, Construction And Commissioning Of A "Bachelor Compound And Supporting Facilities".*

*Scope Included: 100 No. Bachelor Apartments With Other Facilities.*

Engineering, Procurement, Construction And Commissioning Of A "New Facilities & Shelters Upgrade Project". Scope Included All External Works, Architectural, Civil, Structural, Mechanical, HVAC, Fire Protection System, Electrical Services, C3 Systems, It Infrastructure And Utilities For Aircraft Shelter Upgrade Dhahran.

*Approx. 20 Refurbishment And 10 Airbases New Build Facilities.*

# Integrated Physical Assets Management

# Integrated Physical Assets Management

- Actively managing assets is essential for the efficient and sustainable operation of any organization. ACGC's key principle is to intervene with repair and maintenance activities at strategic points in order to maintain the performance of an asset and extend its life.
- ACGC uses IBM Maximo CMMS Asset Management Software which is an asset management life cycle and workflow process management system.
- We Manage Entire Work Management, Inventory Management for Operation and Maintenance for entire Work and Asset Lifecycle at ACGC for Preventative maintenance, Adhoc works such Corrective Maintenance, Work request, Additional Works etc.

## ■ CMMS Models including

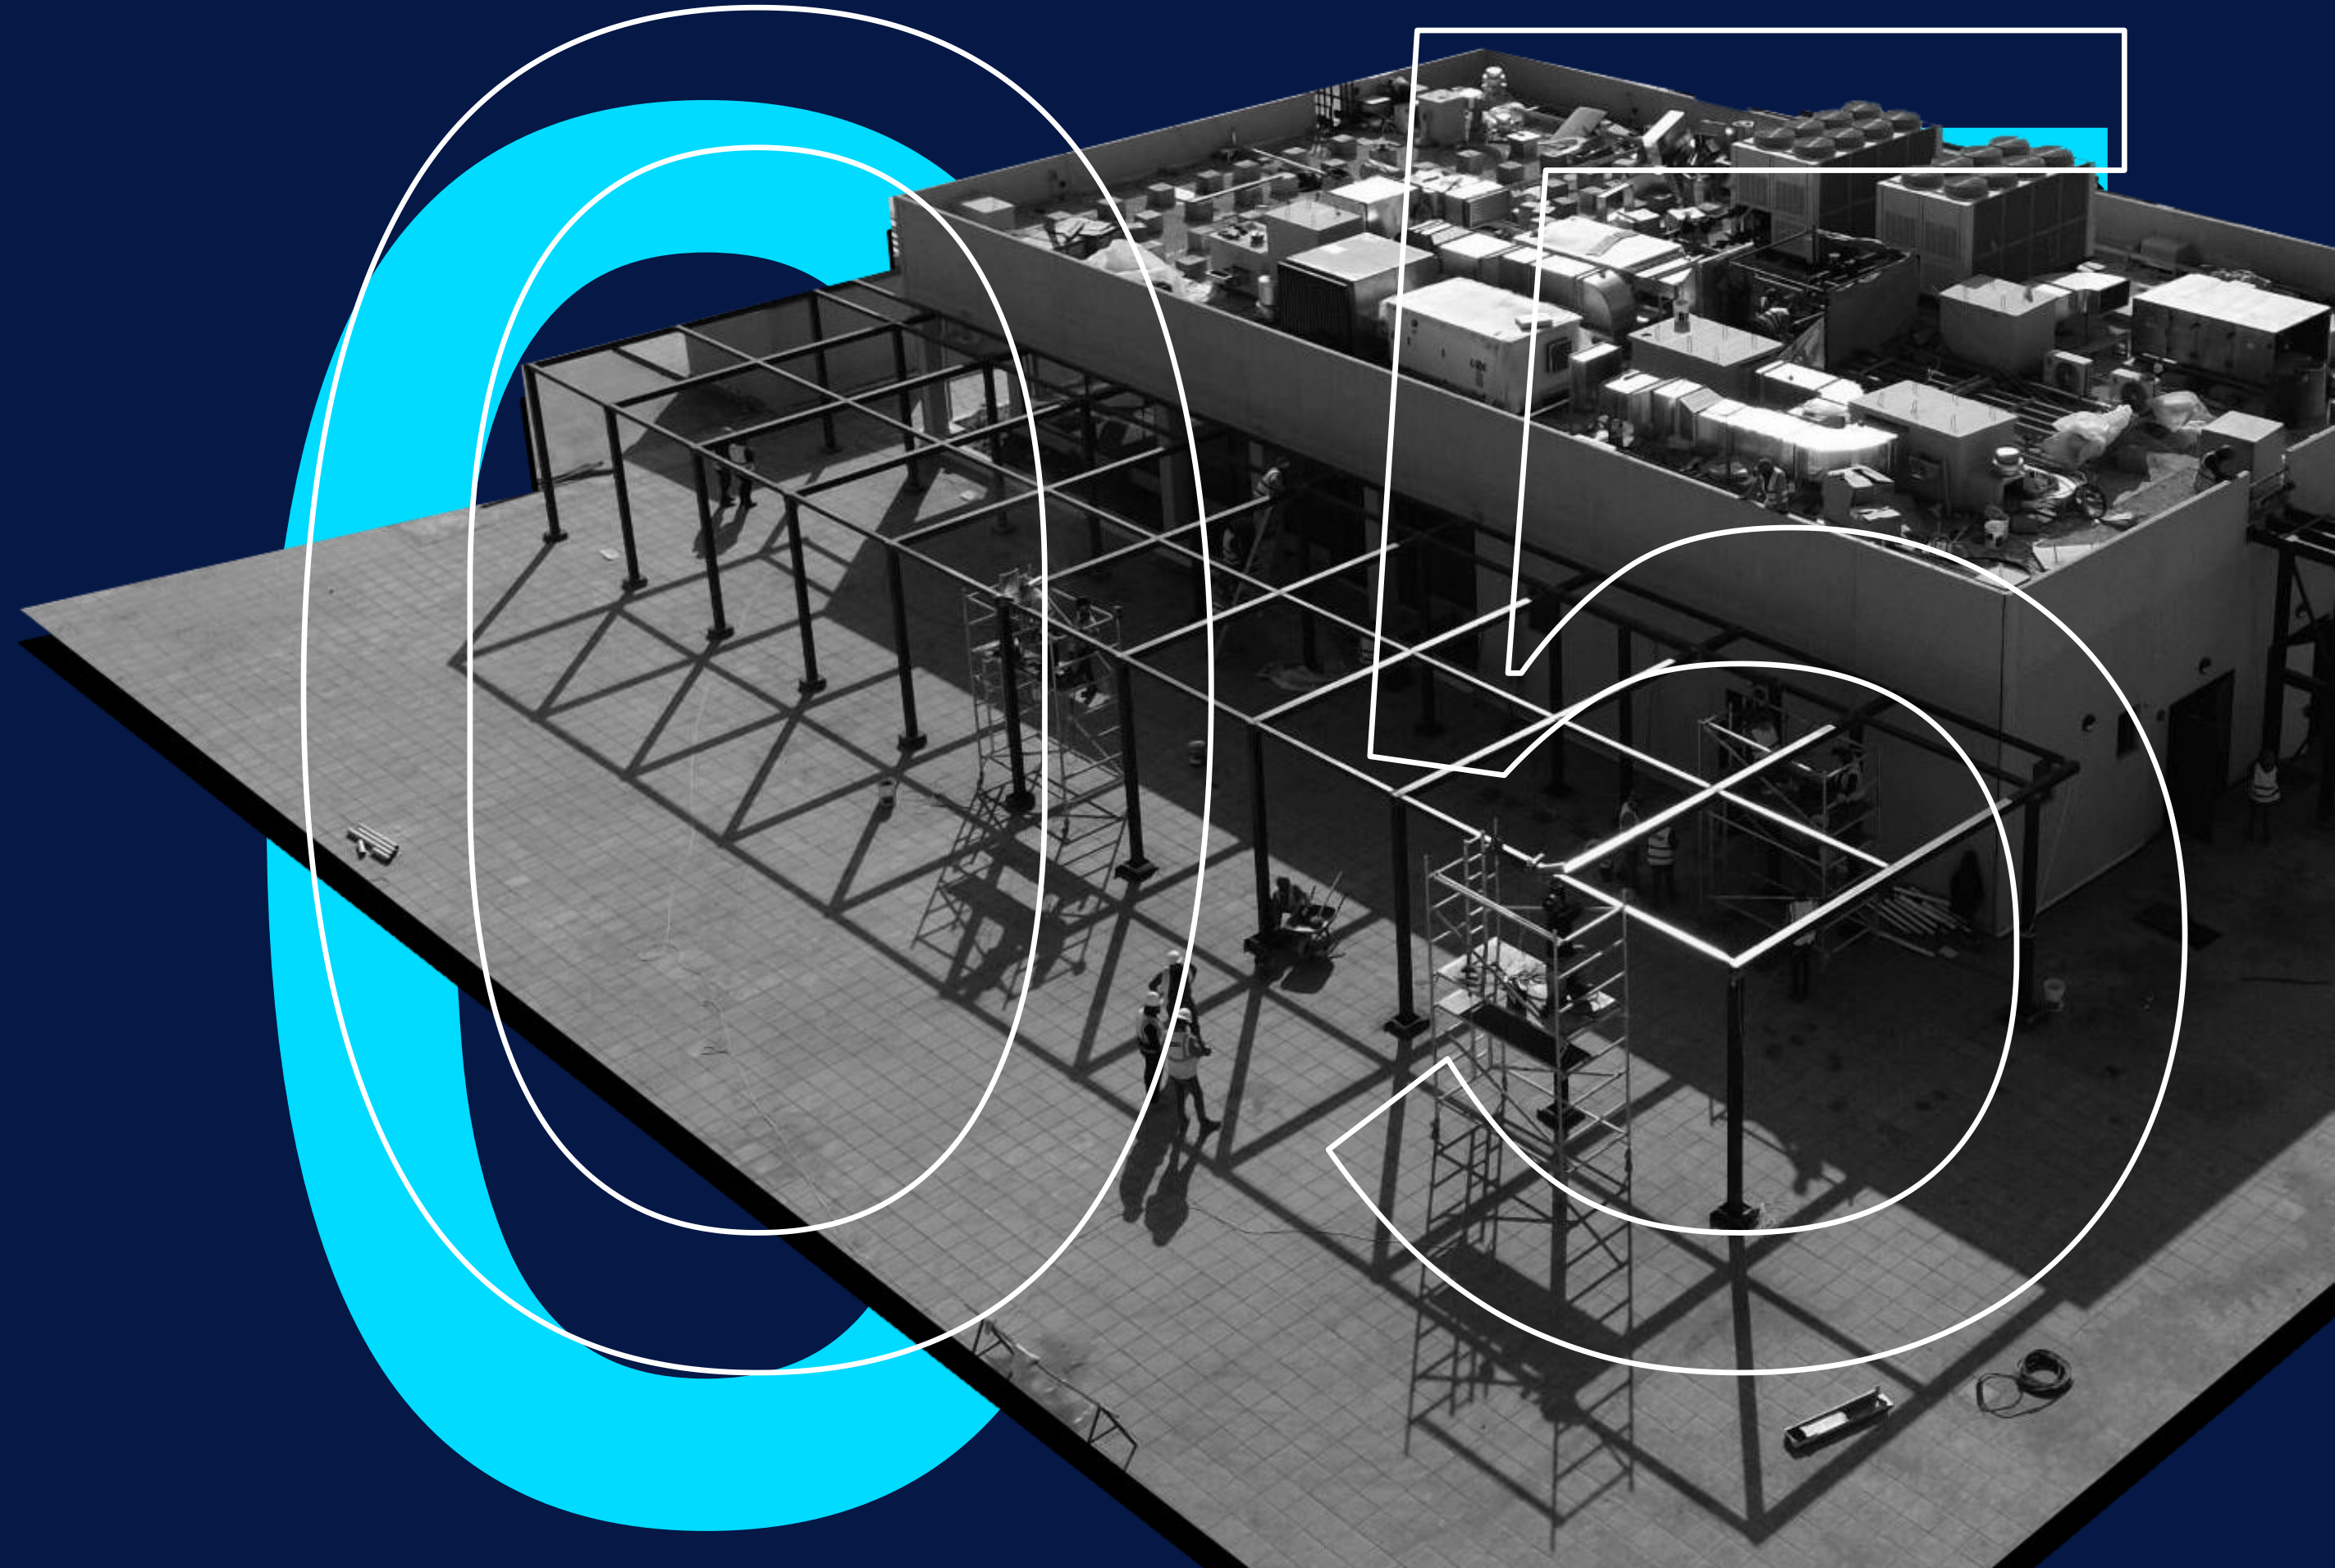

Asset Module  
Workorder Module  
Preventive Maintenance  
Planning Module  
Purchasing Module  
Inventory Module  
Administration Module (Admin Setup for New Site /Org)  
System Configuration Module  
Security Module  
Integration Module

**BAE SYSTEMS**

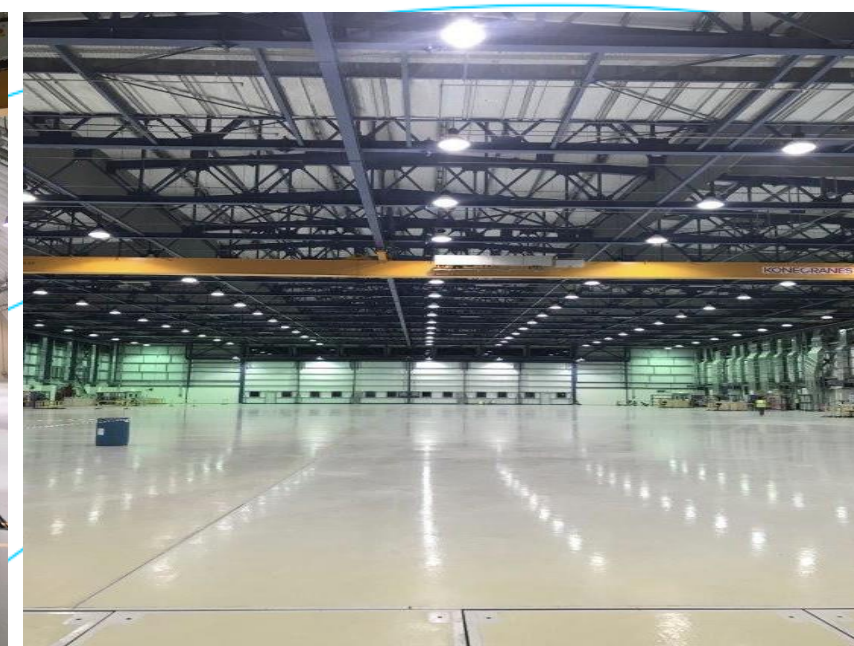

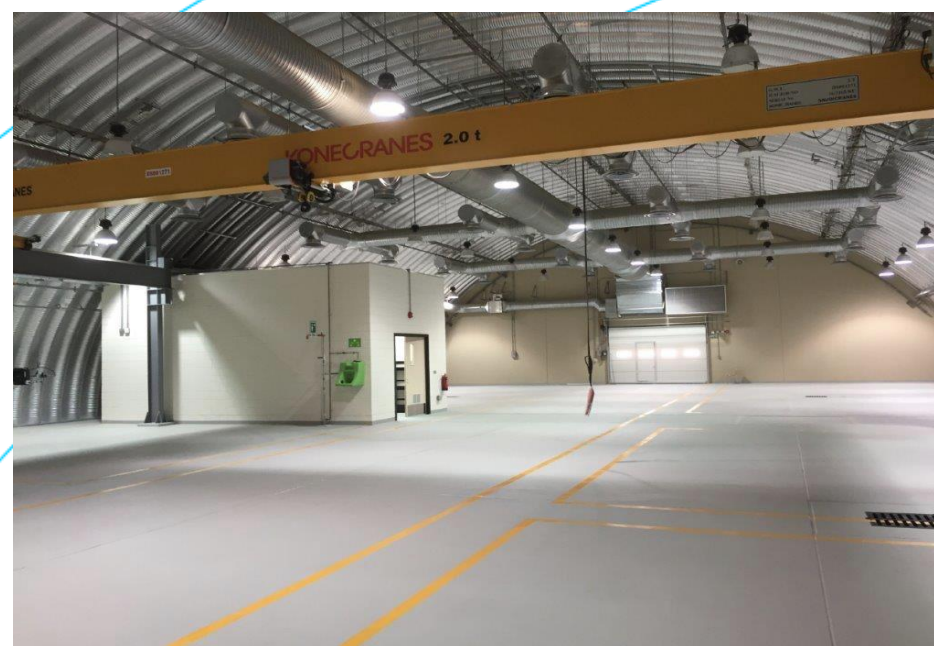

01

## Industrial Hangars & Facilities

**BAE SYSTEMS**

A photograph of a modern residential compound. The scene features a paved road in the foreground, a row of two-story buildings with large glass windows and balconies, and a playground area with blue equipment on the left. The buildings are light-colored with dark window frames. The sky is clear and blue.

02

## Residential Compound Western Region

**BAE SYSTEMS**

An aerial photograph of a large-scale construction project, likely a military facility. The foreground shows a vast, flat, light-colored ground area, possibly a parking lot or construction site. A large, rectangular, elevated structure with a flat roof and several support pillars is under construction. To the right, a massive, light-colored hangar-like structure is visible. In the background, there are various smaller buildings, a body of water, and a distant shoreline with some industrial structures. The sky is clear and blue.
